Edgar H. Adams, in his Private Gold Coinage of California 1849-55, seems somewhat confused concerning the various die varieties of the Massachusetts and California Company coins. From what we can ascertain, the entire coinage of these pieces consisted of Essai or Trial impressions, including the examples known in gold. There are two distinct varieties of the open wreath, FIVE D. design, one presented herewith, the other having smaller letters upon the reverse and sixteen berries in the wreath. The latter is illustrated by Adams under his No. 37. Both are known in gold, as well as in silver, as the Lawrence example and the specimen in the mint cabinet are entirely different. In all, we know of four different dies bearing the Massachusetts and California Company stamp, ignoring the rather dubious pieces with the reverse denomination of FIVE DOLLARS.

MINT OR NATIONAL MEDALS

During the early years of the Republic, Congress authorized the striking of medals to suitably award various individuals for their distinguished national service. The first of these was the famous "Washington Before Boston" medal which is generally listed under the Washington series. The great majority of the medals authorized and struck commemorated heroes of the Revolution and the War of 1812-15. Original impressions were made in Gold and/or Silver, Bronze and Tin. All originals are very rare, several extremely so.

In 1855, it was decided to manufacture "Restrikes" in bronze, at the Philadelphia mint, for sale to collectors and other interested individuals. This reflected a practice long prevalent at the Paris mint. Unfortunately, all of the original dies were not available, and commencing in 1861, imitation or replica dies were cut in Philadelphia so as to complete the series. Early restrikes or impressions, of the Civil War period and later, can easily be distinguished by a "Bronzed" appearance. Late strikings imitate European practices and the examples available in recent years, at the Philadelphia mint, have a yellowish bronze surface.

For many years, the Paris mint manufactured restrikes of several early American medals. These included the "Washington before Boston; Colonel John Eager Howard, for Cowpens; Colonel William Washington, for Cowpens; Captain John Paul Jones, for capture of the Serapis by the Bonhomme Richard." The French restrikes, usually in Silver and Bronze, can be identified by the name of the metal punched upon the edge. (Silver-ARGENT; Bronze-CUIVRE.)

The standard work on the series is a magnificent volume, in two parts, entitled "THE MEDALLIC HISTORY OF THE UNITED STATES OF AMERICA, 1776-1876" by J. F. Loubat, LL.D. Volume I contains 478 pages of text and volume II, 170 fine etchings. This reference was published by the author in New York, 1878. EARLY AMERICAN COINS

The interest displayed for the fine Colanials, in aur last sale, was indeed gratifying. Therefare, it is with considerable pride that we offer a highly representative lat that includes several of the maderately priced rarities. The great majarity af these coins ariginate with an old collectian that was quietly formed fifty ar mare years ago. A few pieces are individually pedigreed, and where known, we give their histary. We highly recommend this series as a constant saurce af pleasure as well as a patentially remunerative investment.

The last three recut letters are particularly obvious and were undoubtedly ignored upon the Crosby specimen due to its poor condition. The obverse die is badly broken in the legend below the tree. The reverse die also shows die defects and cracks. A splendid impression, considering the state of the die. Somewhat off center. Fine and the best specimen known. Excessively rare. **Plate II.**

"BUY" BIDS

We have long considered unlimited orders as sincere expressions of confidence. However, each of our recent sales has shown a decided increase in the number of such bids. Rather than offend any of our many friends, we will refuse all orders to buy, commencing with this sale. Please place a limit upon your bids and we will continue to buy as inexpensively as possible for you.

SPEAKING OF CONFIDENCE—

We are proud of our cataloging, but we are even more jealous of our reputation. The returns from our last three sales, in 1951, totaled less than ½ of 1% of the entire dollar volume realized. You cannot please everybody; however, we are highly gratified to know that 99½% of our customers are well satisfied. Do continue to bid with confidence—The New Netherlands Way!
